PRESIDENT'S MESSAGE

It's been a busy month around here, we have set a new record for new members in a month. Last month (January) we got 82 new members. Mailed out over 100 copies of complimentary copies of the newsletter to people requesting information on the club. If you know of anyone who might be interested in the club, just drop me a line and I will send them a copy of the newsletter and membership form.

If any of you take the Old Cars newspaper, we had a real good article in the January 22, 1981 issue about the club. It told all about the club and also about the Annual Meet we had last August.

It won't be long now untill it will be time for car shows again, the weather will be getting warm and the Falcons will begin to come out. If you want to set up a meet for your area, just set up a date and send it to me so we can put it in the newsletter. I feel we need to have all we can in different areas.

We are now in the process of making up a new roster for those of you who don't have one. We will be sending out an information sheet it the next month or so with the newsletter for all the members to fill out so we can make a roster up listing all the information about the member and the kind of cars (FALCONS) he (she) has.

The 1963 Convertible project is now being put in the computer to see how many has what and so forth. Soon as I get the results I will pass it to all.

Roy E. Sword, President
Falcon Club of America

Just a line or two to let you know I haved moved again. I hope we will be staying here for a while. I would like to tell you something about my Falcon; I bought it new in 1961 it's a four door Sedan with a 170 Engine. I drove it 127,000 miles and the oil pump went out 10 miles from my destination, and since I had that many miles on it I had already got my money's worth so I drove it home without oil by the time I got home every thing was squeaking.

This was in 1964 or 65. My son and I pulled the engine, We were living in Lompoc, Ca. at the time. We took it to Monte's Parts Store and Machine Shop. Their Mechanic rebuilt it for \$135.00.

We put it back in and I drove it another 102,000 miles and again we overhauled it. This time we had to have it bored out, They bored it out. I think it was .0045.

In September of this past year I had a rod to start knocking. We replaced the old engine with a complete rebuilt engine from Jaspar's in North Carolina for 466.00 dollars, I had 324,686 Miles on the old engine the same block and the same crank.

My Falcon to-day looks almost as good as the day I bought it. I am 70 Years old and a year ago last October 8th while living in California City, CA. I had a stroke and my whole left side was paralyzed.

Three months after I got out of the hospital I crawled into my "Falcon" and backed it out in the street and with the help of my left arm, I am able to get my foot on the Clutch. I am improving daily and My Falcon has been great therapy for me.

My wife and I enjoy your monthly news letter and look forward to receiving it every month. We hope we will be able to make the next Meet in the coming year.

Sincerely, Yours
Wilbur C. Edens and "Liz"
